

To the Boss:

I'm co-founder of SmallCo, an app design consultancy with offices across Europe and the Americas. Our clients include Apple, Harvard University, Cork University, Fidelity Investments, BNP Paribas, The New York Public Library, The San Francisco Museum of Modern Art, and small & large companies on four continents.

We help your team work. SmallCo crafts apps for business, tools that workgroups use to get things done with greater ease and better quality. Could you use a tool that lets your team work better?

No matter what business you are in, chances are SmallCo has built apps for a workgroup like yours:

- Airport managers in Sweden
- Corrugated box makers in Honduras
- Asphalt recyclers in Georgia
- Radio stations in New York, Santa Monica & Miami
- Intellectual property attorneys in Eastern Europe
- Cement manufacturers in the Dominican Republic
- Museums in Mexico City
- Sales teams in Spain and the U.K.
- Medical students in New Jersey

Call us for a chat, on our nickel. We can help you spec your project, choose technology platforms, build a prototype and plan for launching the app.

SmallCo has deep & long experience on a number of technology platforms. For a comprehensive list, visit smallco.co.

Sincerely,

Albert Harum-Alvarez
